REACT NATIVE INSTALLATION GUIDE

Step 1: Download and Install The Following Software

1.1 BlueStacks X Emulator
1.1.1 https://www.bluestacks.com/bluestacks-x.html

1.2 Android Studio
1.2.1 https://developer.android.com/studio

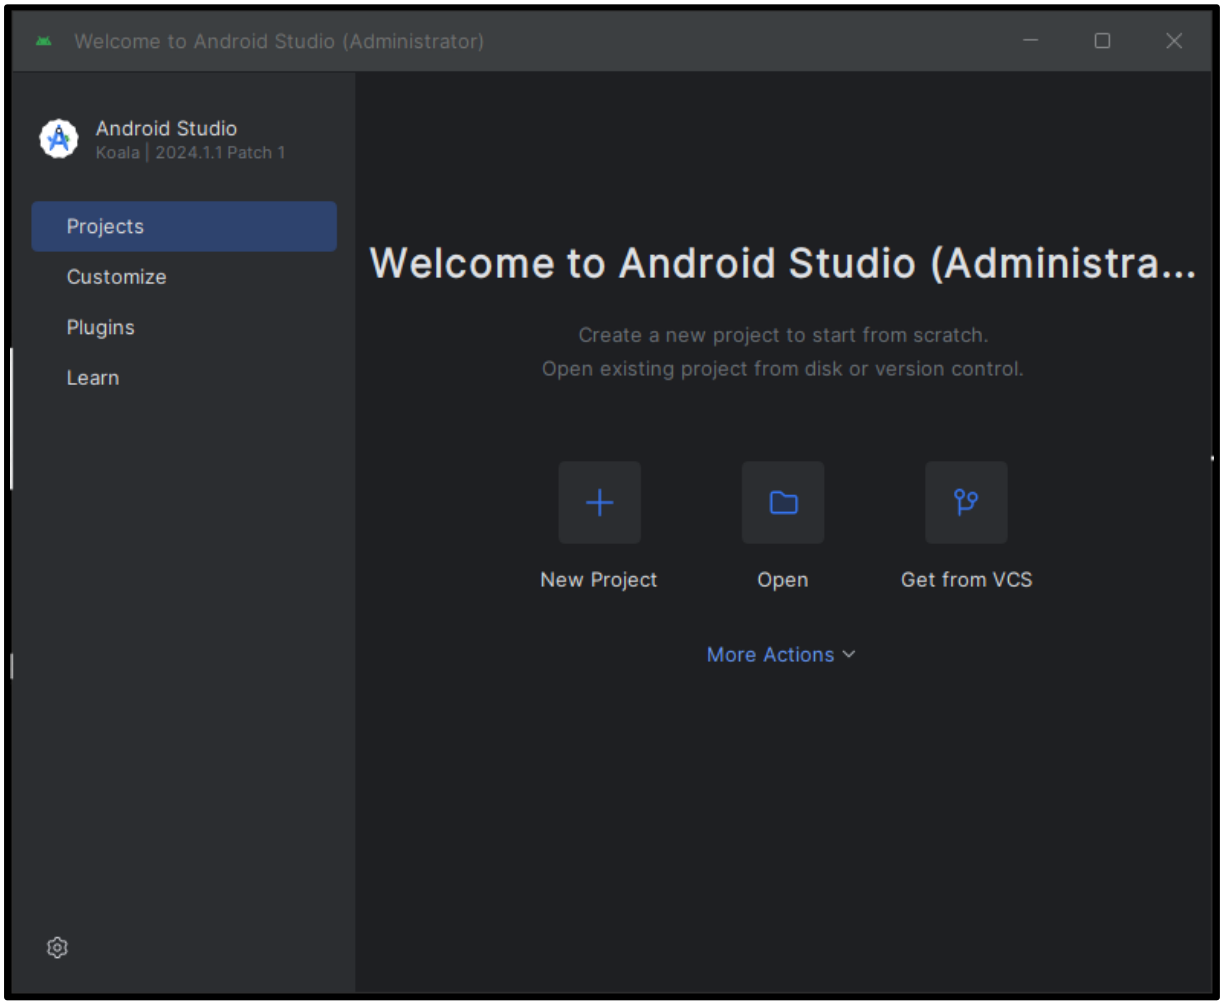

1.3 Emulator Script
1.3.1 Place this script on the Desktop of your VM

Step 2: Modify Android Studio's SDK

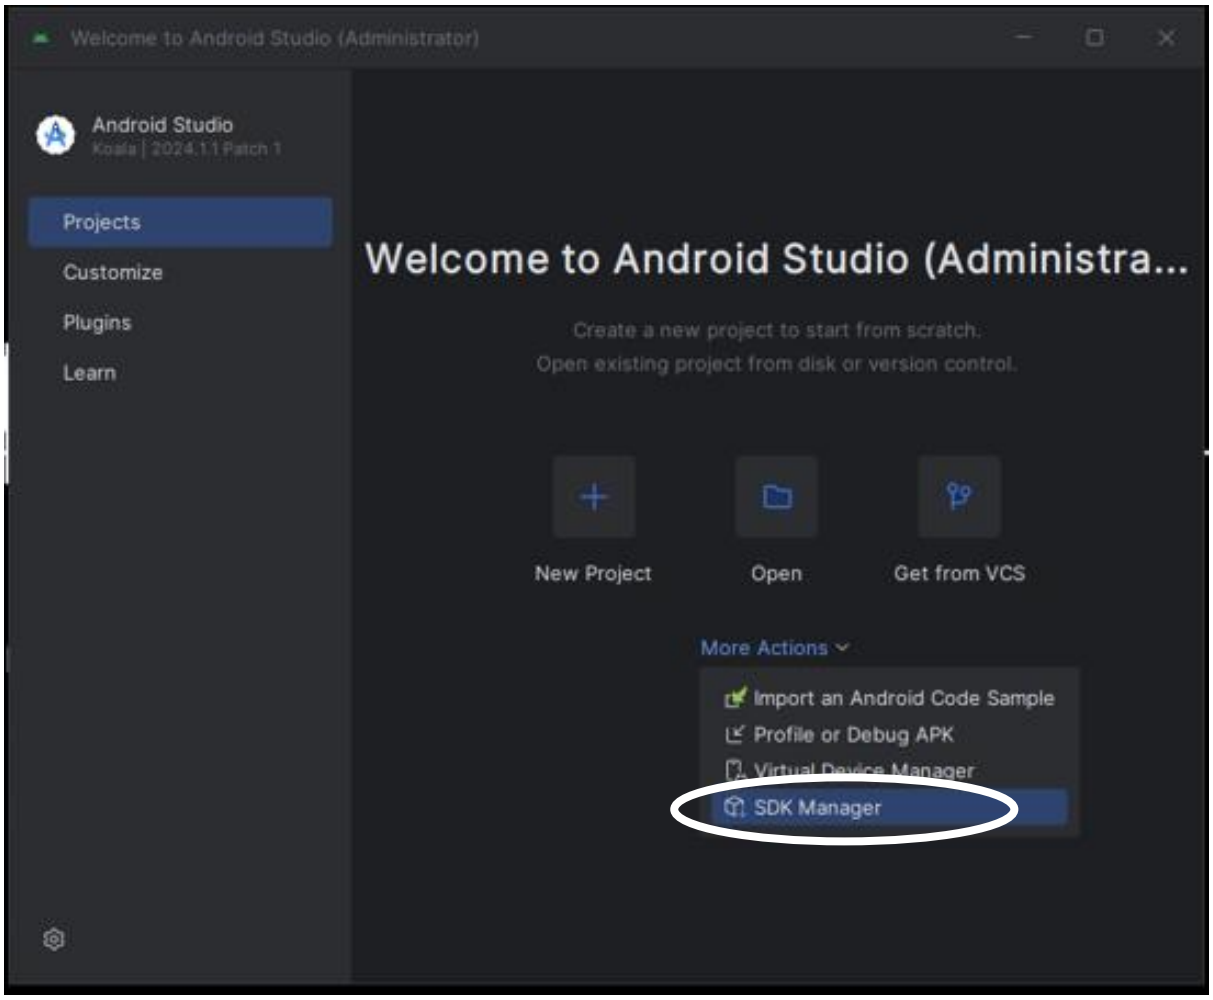

In this step, you will need to uninstall version 35 of the SDK and ensure that Android SDK 34 is installed.

2.1 Open Android Studio

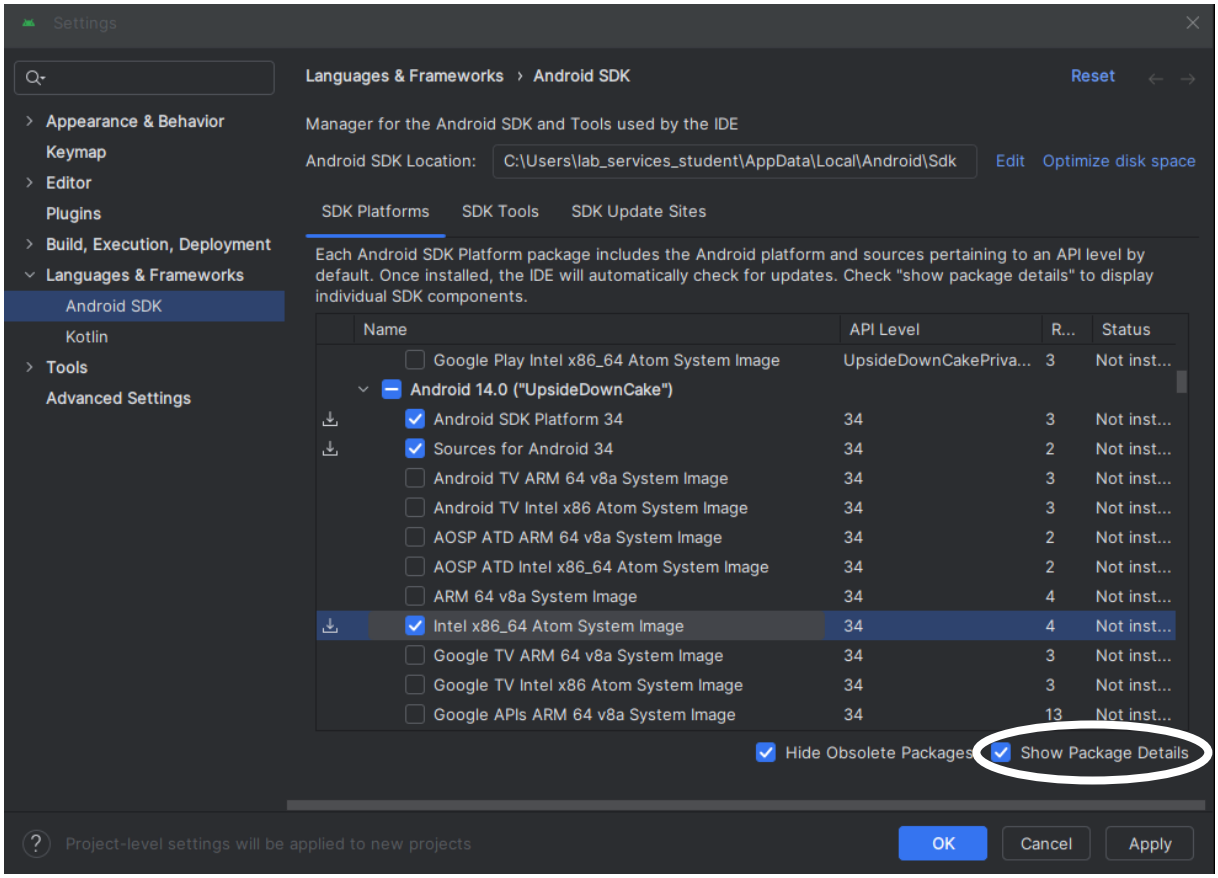

You should see the following screen:

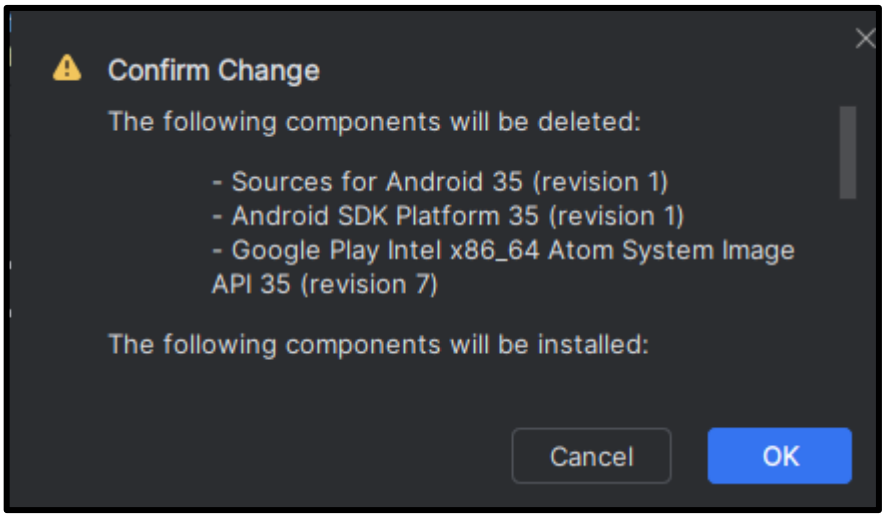

2.2 Click on 'More Actions' and select the option SDK Manager

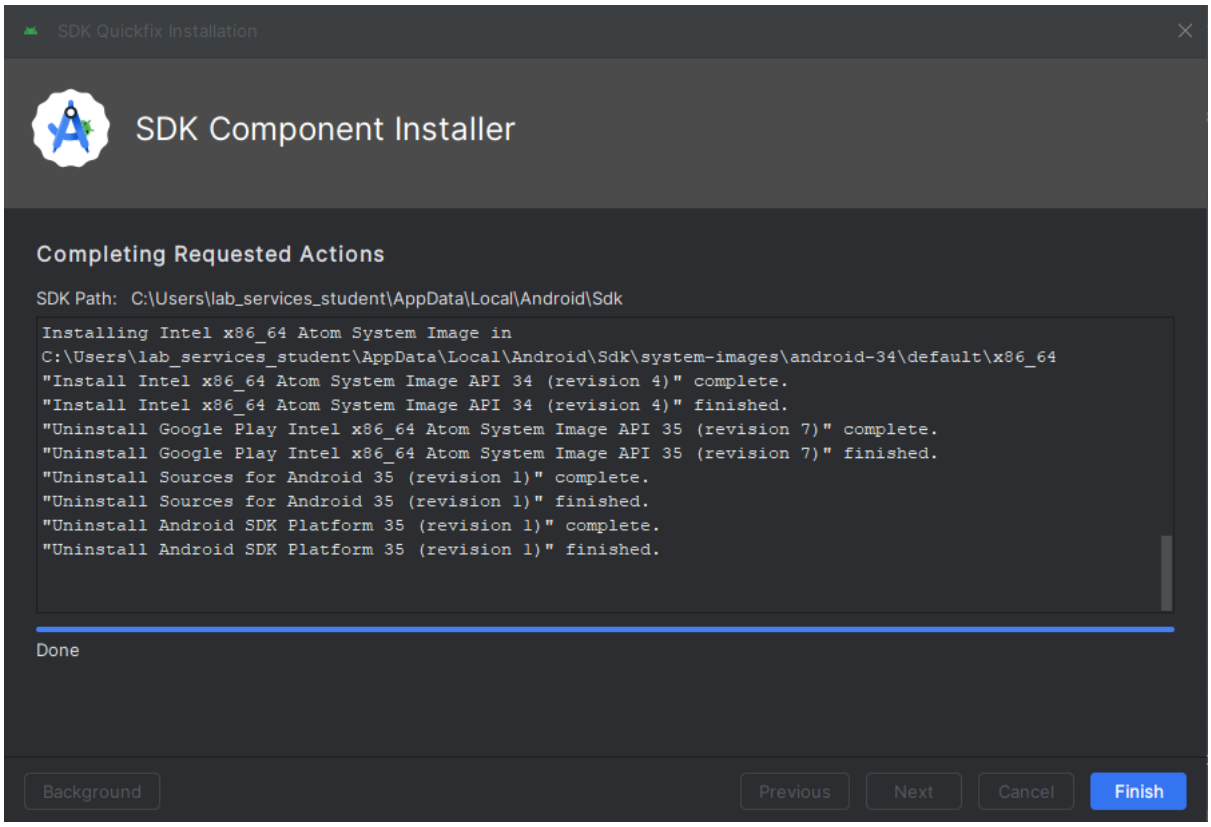

2.3 Select the option 'Show Package Details', deselect any options associated with SDK 35. Select the options associated with Android SDK Platform 34 as indicated below.

2.4 Click on 'OK' when you receive the following message:

2.5 Click on 'Finish' when you receive the following screen.

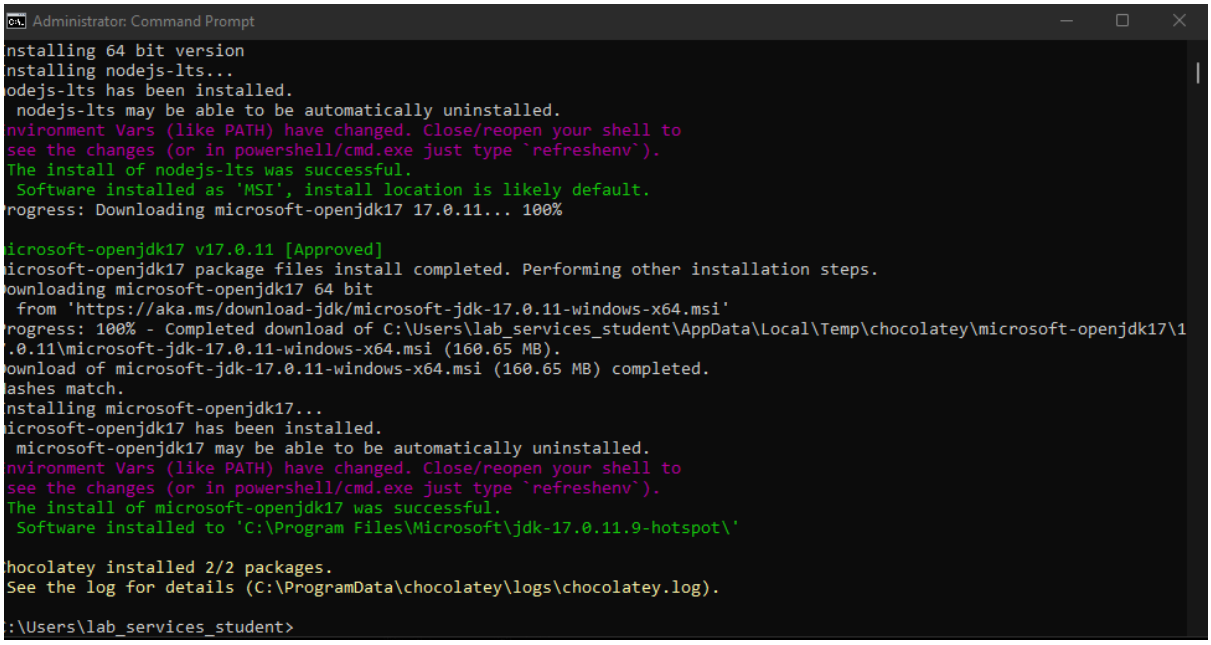

2.6 Close Android Studio

Step 3: Install Node.Js and the appropriate JDK

3.1 Open Command Prompt and run it as administrator. Then run the following command.

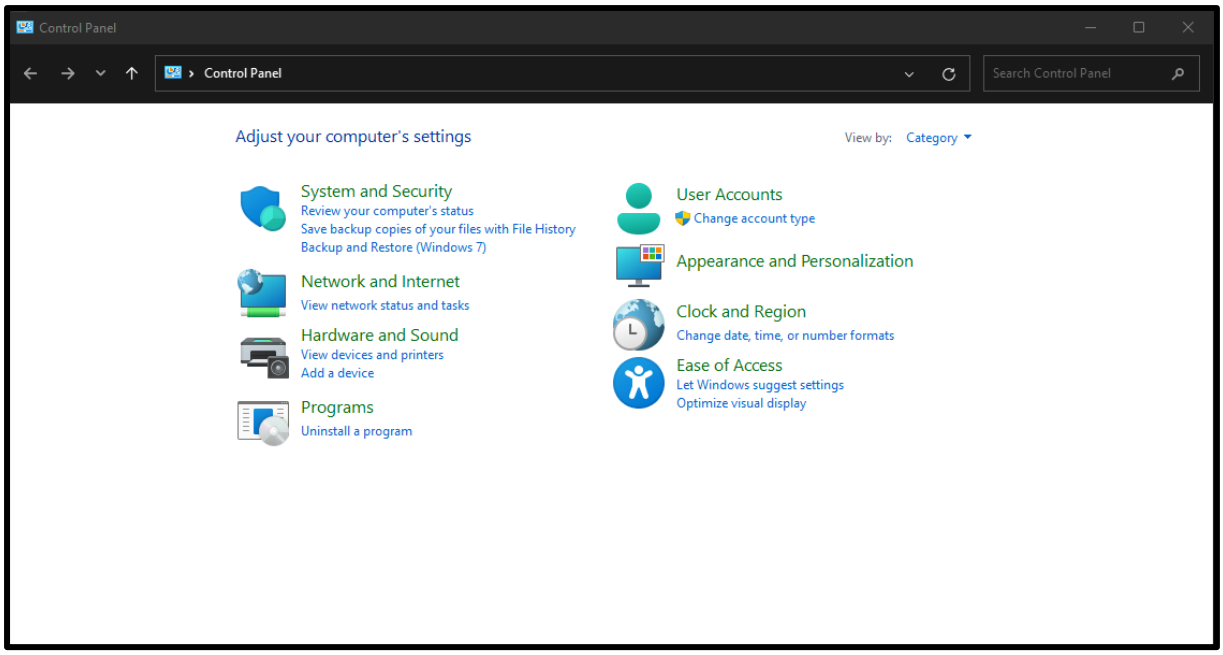

```
choco install -y nodejs-lts microsoft-openjdk17
```

Once installed, the Command Prompt should look as follow:

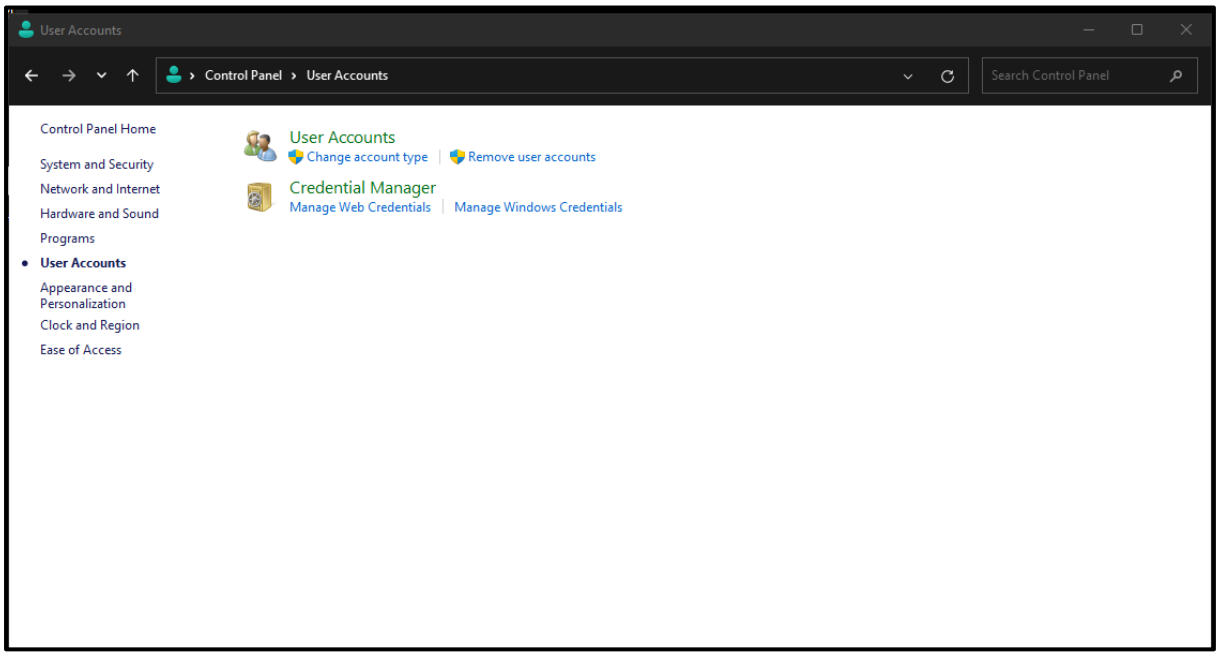

Step 4: Set up your Environmental Variables

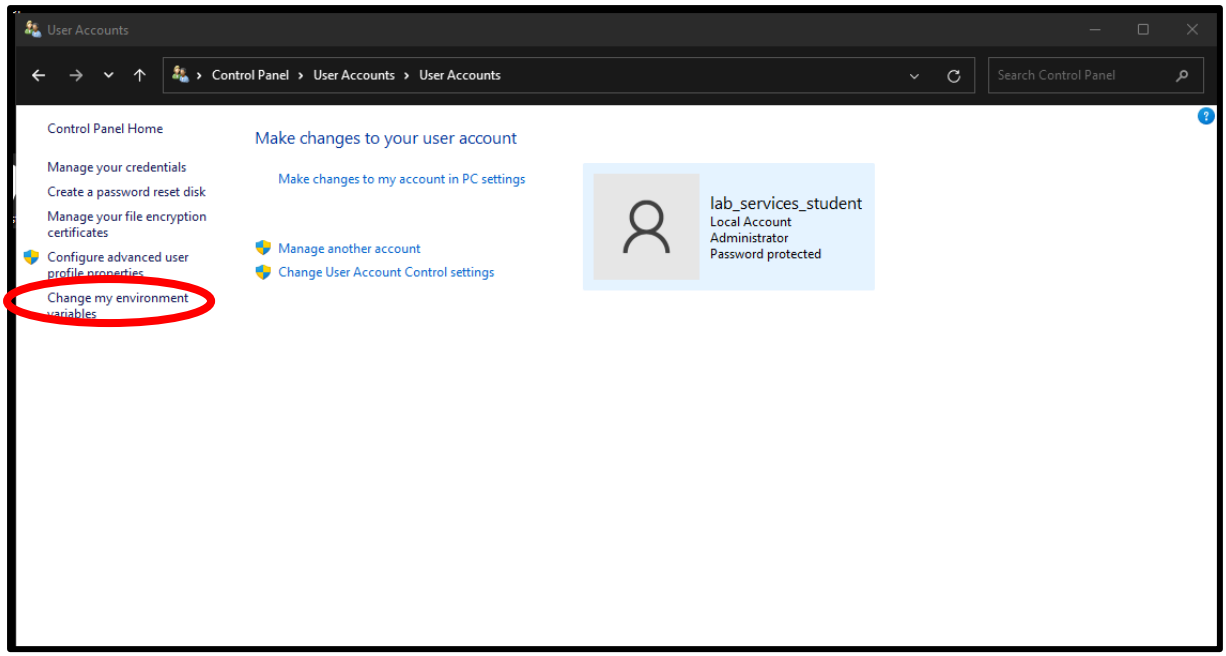

4.1 Open the control panel.

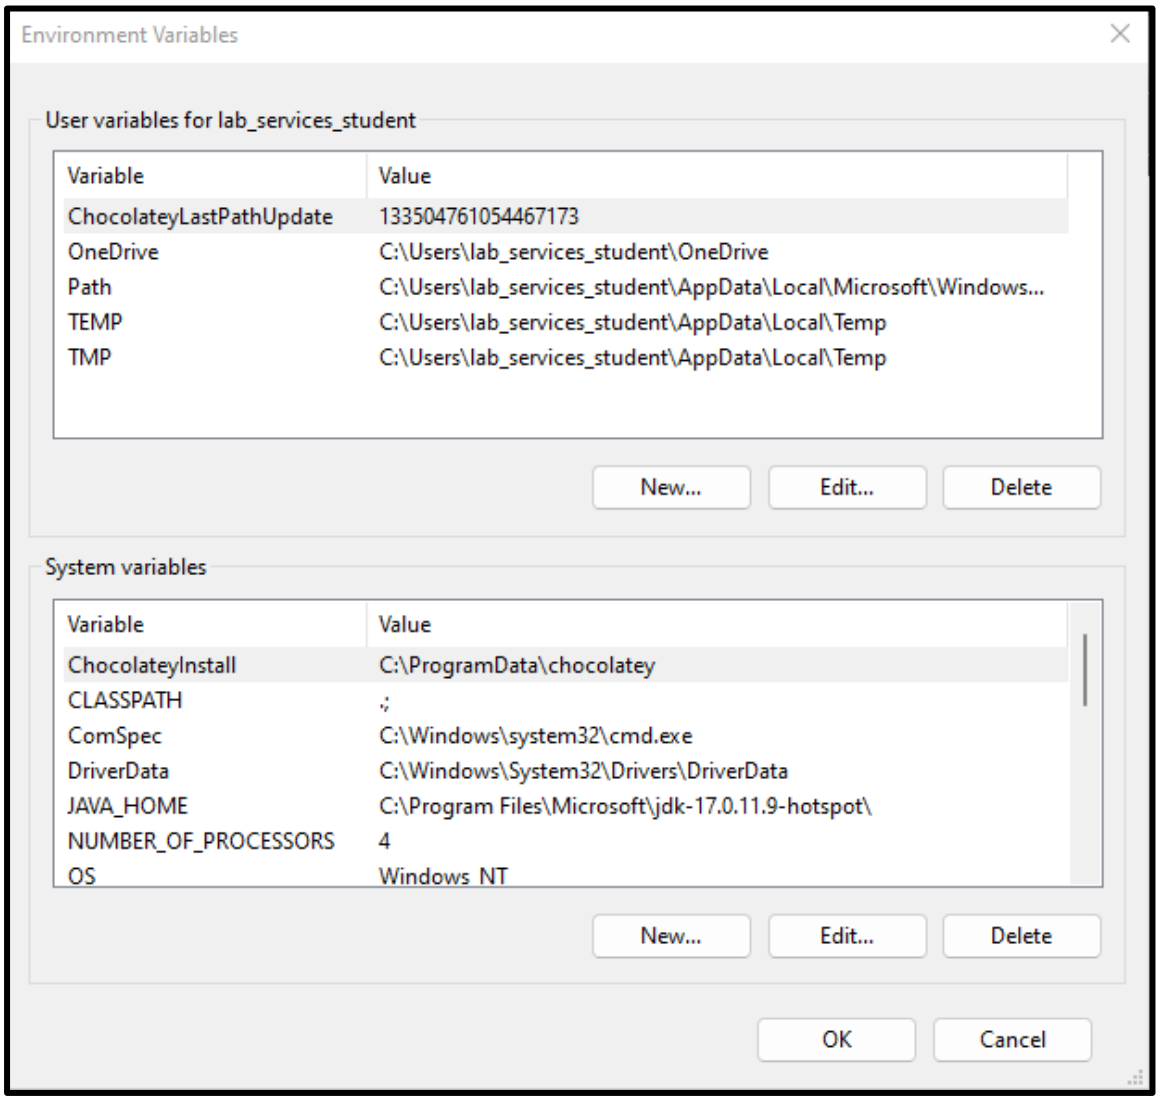

4.2 Click on User Accounts.

4.3 Click on User Accounts again and select the option Change My Environmental Variables.

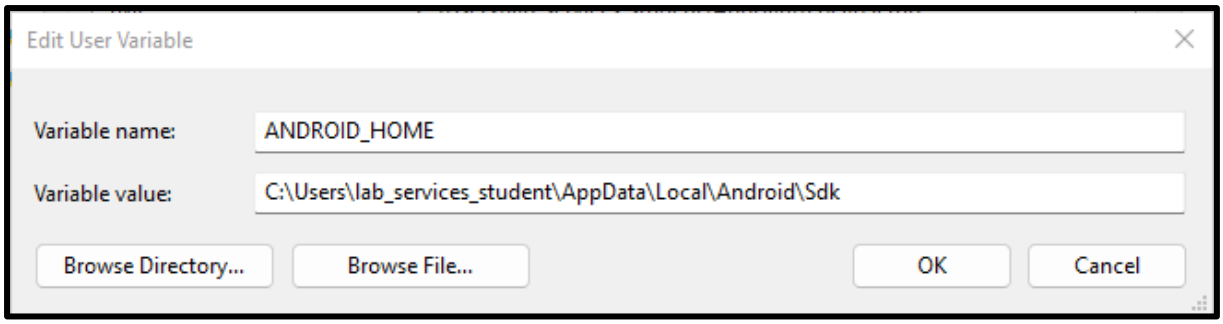

We will be adding the Environmental Variable for the lab_services_student environment.

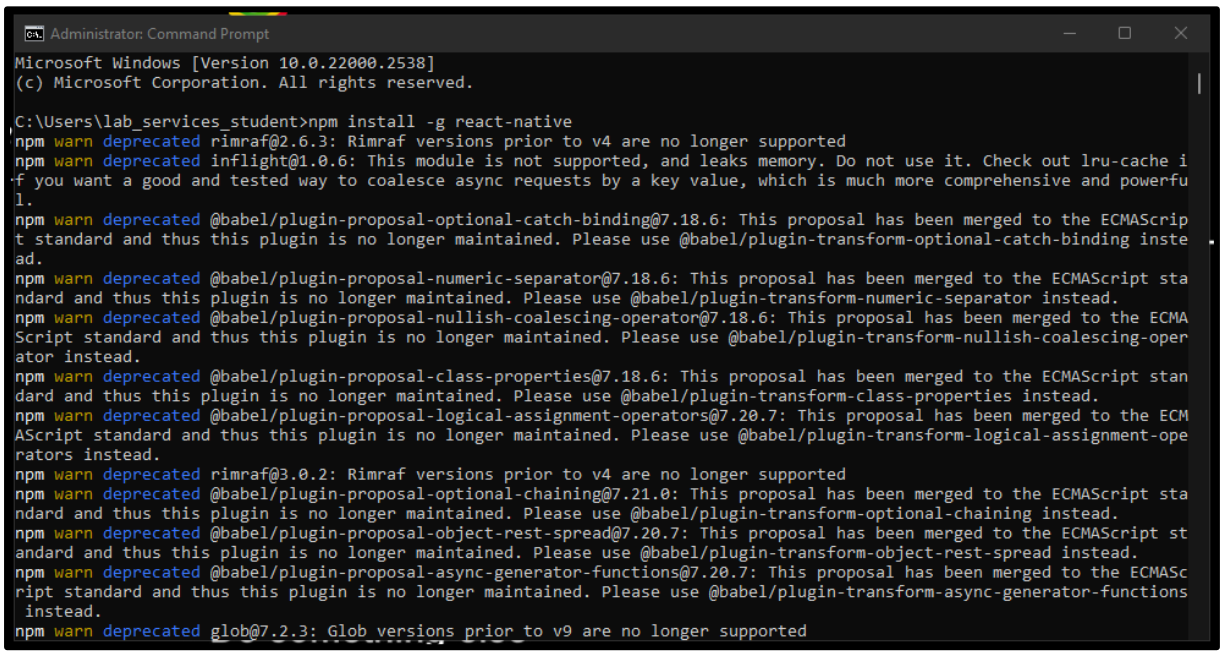

4.4 Click on the first 'New…' button below the User variables for lab_services_student section.

Enter the details as below in the fields provided and click on 'OK'

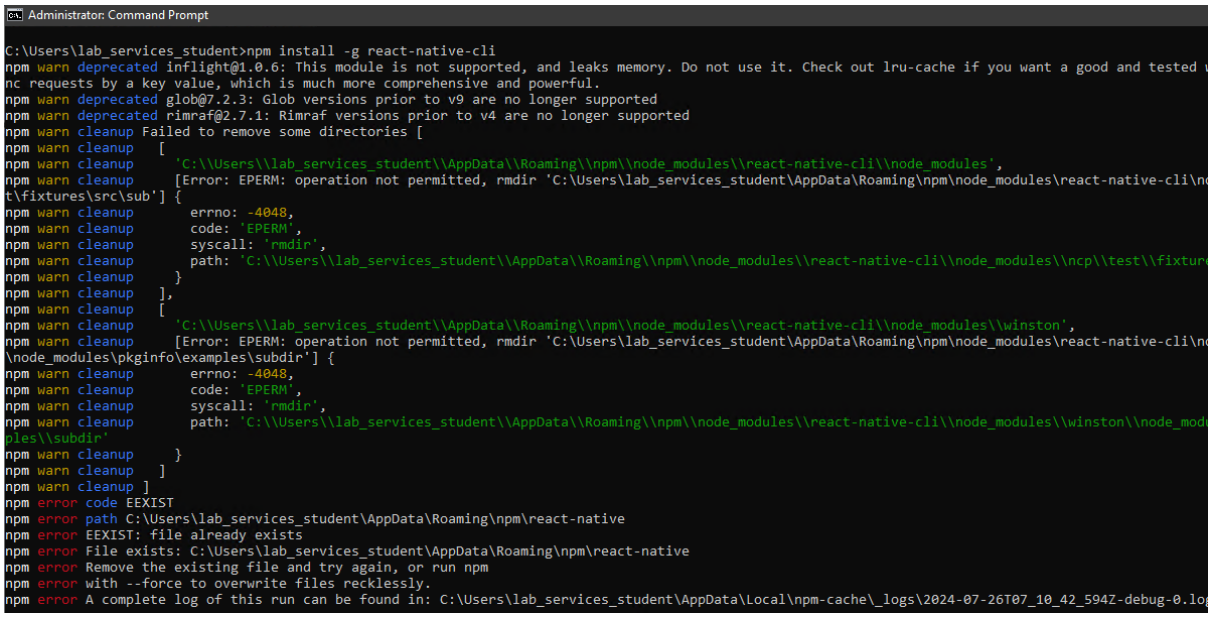

Step 5: Install React-Native

Open a Command Prompt Window and run the following command: **npm install -g react-native**

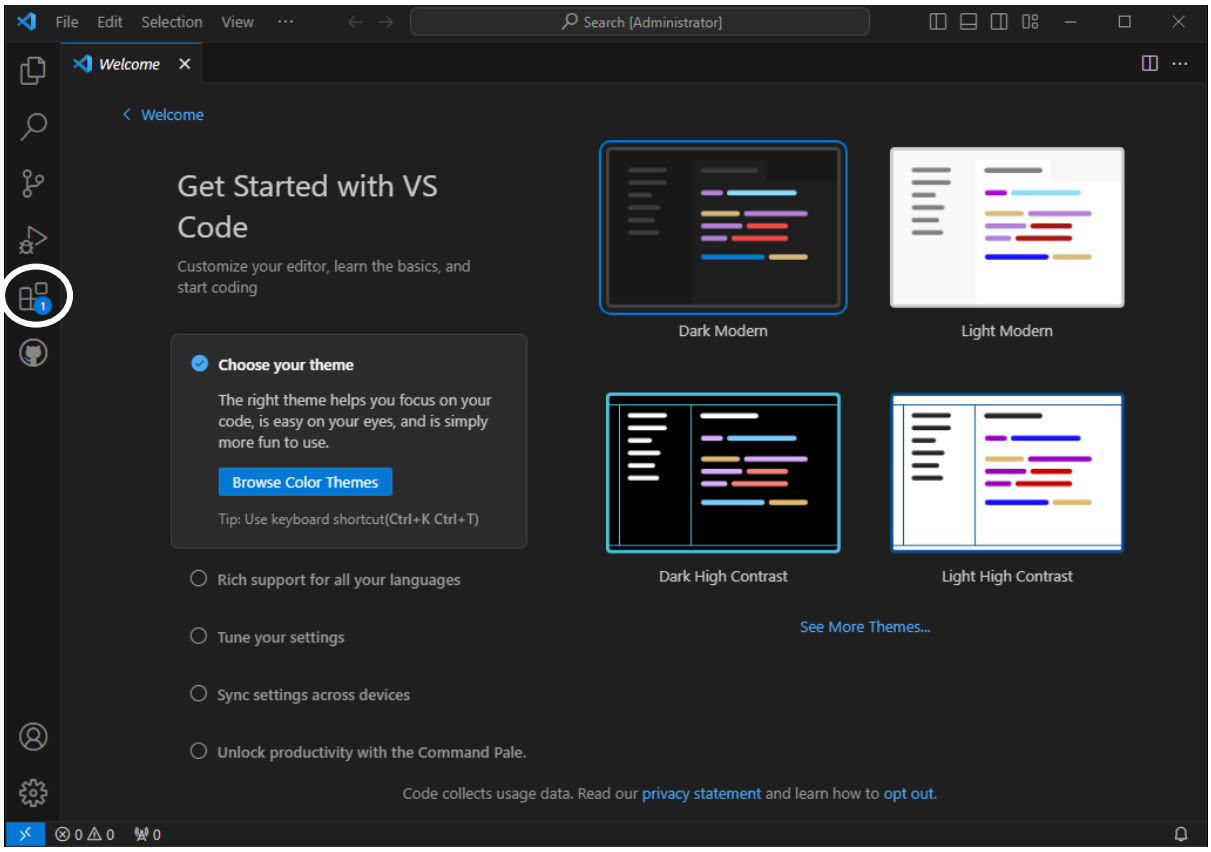

Step 6: Install React-Native-CLI

Open a Command Prompt Window and run the following command: **npm install -g react-native-cli**

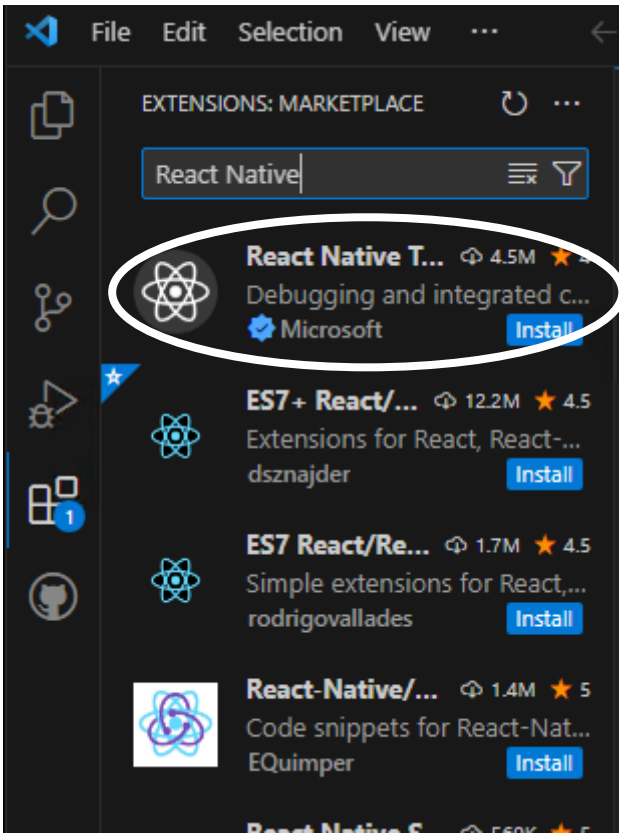

Step 7: Configure Visual Studio Code

7.1 Open Visual Studio Code

7.2 Click on the **Extensions** menu item as circled above.

7.3 Search for the **React Native Integrated Debugging and Commands** component. Install these components.

Once installed, you will see the below appearing on the right-hand side of the screen:
